"Allan Koltin's workshop session at the Moore Stephens Europe Spring Conference, April 2017, was a real highlight. Allan's delivery combined his expertise, insight into and knowledge of our chosen topics (current trends in firm growth; talent attraction and retention; best practices in leadership and management; performance-based partner compensation; mergers & acquisitions) with putting great questions to the audience to check understanding and get us thinking in small groups. This produced a highly interactive and thought provoking session in which one topic flowed smoothly into the next, capturing and maintaining the full attention of the audience. The member firm partners confirmed they got a lot of value from this session." **Chris Rawden, Executive Director, Moore Stephens Europe**
